Tracey Stretton is a Managing Director in London, and an expert in the use of innovative technology in litigation and investigations. She consults on data and technology projects including on emerging class actions. She is also responsible for expanding the firm's business in the UK and overseas. Tracey's experience in legal technologies stems from her practice as a lawyer and consultant on many cases in a variety of international jurisdictions and industries.

Tracey is an attorney admitted in South Africa who has practiced in South Africa, Australia, and the UK focusing on complex commercial litigation cases in banking, fraud, and insolvency.

Prior to joining Ankura, Tracey was a legal consultant advising clients on eDiscovery, compliance, and data privacy. She also spent four years with a top 10 international law firm advising lawyers in the UK, EMEA, and Asia on the appropriate use of technology in dispute resolution.

Tracey is a recognized thought leader who chairs and speaks at conferences, has contributed to several books of books on the management of technology related risk and eDiscovery, and has published many articles on the impact of technology on law and business.

Tracey's professional experience Includes:

- Worked as an independent legal consultant on commercial litigation advising companies and their lawyers on the use of technology in legal practice and business.
- As a legal consultant, Kroll Ontrack/KrollDiscovery, Tracey was responsible for advising companies and lawyers on the use of technology in litigation and on eDiscovery related cross-border data transfers. Tracey was also responsible for expanding business internationally.
- As a litigation support lawyer and litigator, she advised lawyers in the firm's offices globally on the use of technology in litigation. Part of litigation team on large banking matter. Commercial litigation on a complex insolvency related banking dispute.
- Assisted on a large civil litigation matter related to insolvency and banking.
- Practiced as an attorney on civil litigation matters focusing on insolvency, fraud and banking.
